

I am vehemently against any type of censorship by the United States Government; it is up to the individual to choose what they read or watch via the mass media. Complaints by individuals to the government re. content of mass media should be addressed as their responsibility to police their viewing habits.

The proposal to require Radio and TV stations to tape all of their shows is, in my opinion, not only censorship of sorts, but clearly is an unfair financial burden on them. I therefore request that this proposal be vetoed.
